

PE/PP LINER BAGS

Product Description

JPPL is capable to produce plastic liners for industrial packaging application. These liners can be used to line inside paper cartons or woven sacks. These provide moisture proofing to the contents stored in them and improve shelf life of the goods. These are optional to be printed with clients design upto 8 colors with rotogravure printing.

Features

- 1 It is cost efficient solution to spoilage and spillage issues.
- 2 Guaranteed, laboratory tested and proven material.
- 3 Durable, waterproof and hygienic to user.
- 4 Highly optimized inks and no color transfer in goods.
- 5 Food contact safe and agmark certified.

Applications

This product can be used in packing of solids or liquid products. It can be used inside boxes, woven sacks or drums to prevent spoilage and spillage of goods.

Technical Specification

The liner bags are customized to client needs with multicolor printing and sizes. Our product can be made capable to pack any quantity of material with designated shelf life as required by buyer depending on supply chain.
