5. High Strength PE film with UV Resistance Capability.
6. Customizable in thickness & Printing.

## Technical Specification

Type Of Testing	Typical Value	Test Method
Film Thickness	17-125 Micron	IS : 8402
Total Thickness	20-130 Micron	IS : 8402
Type Of Adhesive	Acrylic	N / A
Tensile Strength	0.25-1KGF	ASTMD - 100 0
Elongation	120% min.	ASTMD - 100 0
Adhesion To Steel	50-600 gram/inch	ASTMD - 100 0
Temperature Resistance	60°C	IS : 84 02
